Tim - can you please make this addition below the toll free number on the website?  
"EPA has established a toll-free number so residents in CO, NM, UT, AZ, and the Navajo Nation who have been impacted by the Gold King Mine release can provide their contact information and be called back with information. The number is available for people to speak to someone in English, Spanish, and Navajo."

The "hot line" number Region 6 set up that is posted on the web page is just a number for people to call and leave their name, number, and issue.
